

The University of Wisconsin-Madison Department of Philosophy,
in conjunction with the American Philosophical Association and the Phi Beta Kappa Society,
are proud to present a symposium celebrating the 2017 winners of

The Dr. Martin R. Lebowitz and Eve Lewellis Lebowitz Prize for
Philosophical Achievement and Contribution

IS THE SCIENTIFIC METHOD A MYTH?

Does the scientific method include non-trivial principles of reasoning that apply across vastly different subject matters, or is the real work in science done by methods that are highly specific to the subject matter at hand?

**“The Scientific Method:
The Devil Is Always in the Details”
Professor Nancy Cartwright**

Professor of Philosophy at the Department of Philosophy,
University of Durham and University of California, San Diego.

**“The Scientific Method:
Methods That Aren’t Subject-Matter Specific”
Professor Elliott Sober**

Professor of Philosophy at the Department of Philosophy,
University of Wisconsin-Madison

**Friday, February 2, 2018
3:30 pm
Pyle Center – Alumni Lounge
702 Langdon Street Madison, WI**
